

Accordant Bulletin

Welcome to the Accordant Bulletin for Sage Timberline Office users!

July 2009

In mid-June, over 200 of Accordant's Timberline clients attended one of three half-day User Meetings in either Cherry Hill, NJ, New York City, or Melville, NY.

Attendees were given an introduction to Crystal Reports by nationally-known crystal expert, David Hardy, as well as updates on new features in Timberline 9.6, an application preview of TimberScan and MyAssistant, and a question and answer session with tips and tricks shared through a panel of Timberline experts.

Here's what some of our clients had to say...

"Very informative...overall a great learning experience. Thanks!"

"Very good meeting. Got a lot of helpful hints from other's questions. Thank you."

"There should be more Timberline user meetings!!!!!"

"It was nice to put a face to the names of those that are always assisting us. Also interesting to see what is ahead with Sage Timberline."

One glaring area of inefficiency in many companies is the accounts payable approval process. Fortunately TimberScan automates this process and gives you the control you want.

TimberScan is a paperless approval system designed specifically for Timberline. It will automatically route invoices to the right approver based on *your* business rules. It's easy to use and quick to implement and it provides exceptional reporting. TimberScan can greatly improve your efficiency and productivity.

Join our web-based seminar and see why everyone is raving about TimberScan. There are lots of dates and times to choose from.
