

FOR IMMEDIATE RELEASE

Accordant Company Joins the Meridian Systems Value Added Reseller Partner Network

New VAR provides construction project management software solutions in New York, New Jersey, Connecticut and Pennsylvania

Whippany, NJ (September 3, 2009) — Meridian Systems, the Plan-Build-Operate technology solutions leader for project-based organizations, announced today a new Value-added Reseller (VAR) agreement with Accordant Company. Accordant will provide comprehensive software sales and professional services for Meridian's Prolog[®] solution in New York, New Jersey, Connecticut and Pennsylvania.

"By representing Prolog software, Accordant now offers a full range of complementary solutions to Architecture/Engineering/Construction (AEC) companies and building owners managing capital projects," said Bob Sandelands, managing partner, Accordant. "With the industry leading project management software as part of our portfolio, we can grow our customer base, increase our skillset and offer more value as a one-stop- solution provider to Meridian customers in the AEC, Public and Commercial sectors."

Accordant has more than 20 years of construction experience serving more than 2,500 clients as a proven VAR for a leading estimating and financial software company. By combining its local market knowledge and technology expertise with Meridian's project management solutions, Accordant can provide high levels of service to the region's construction and real estate companies.

"With the addition of Accordant to the Meridian VAR partner network, Meridian continues to deliver local construction expertise and value to our customers," said Elizabeth Dodson, director of business development at Meridian Systems. "Accordant's extensive construction industry skillset provides Meridian customers in this region with a turn-key, full-service solution."

Meridian's VAR partner network enhances customers' investment in Meridian software solutions by providing in-depth construction industry experience and value-added implementation and training services in their local area. For more information, visit:
