

# planswift®

The #1 Takeoff & Estimating Software

## Win more jobs with easy accurate Material takeoffs!

Join the thousands of builders, estimators, and contractors who are already using PlanSwift to perform their material takeoffs digitally, on their computer screen, in 1/10<sup>th</sup> the time it took them to complete on paper.

With PlanSwift's visual point-and-click interface, you can drag and drop individual products or assembled product groups directly onto a digitized blueprint. PlanSwift calculates the takeoffs automatically – saving you valuable time and effort.

### KEY BENEFITS:

- ◆ Win more bids!
- ◆ Dramatically reduce job costs and risks.
- ◆ Minimize material waste and short orders.
- ◆ Load all major CAD and image file types
- ◆ Calculate takeoffs with unparalleled speed and accuracy

*"We have been using PlanSwift now for the past 6 months, and the amount of time it has saved is staggering. The program is very intuitive, simple to use, powerful, and has dead on accuracy. PlanSwift has been a great asset to our company."*

-Bob C., Universal Forest Products

**Easy, Accurate, Efficient**

The fastest, easiest software for completing construction takeoffs.
