Put construction HR & payroll on autopilot.

Payroll reporting and compliance

From complex pay rates and certified payroll to union reporting and fringe offsets, Miter keeps you compliant without the administrative headaches.

Precise job costing

Gain complete visibility into your finances by breaking out hours and earnings by job, cost code, and other dimensions before pushing back into Sage 100 for job costing.

Tax filing & direct deposits

Simplify quarter-end with fully-automated state and federal tax filings, child support garnishments, and employee W2s for any job in any state.

Easy employee portal

Provide direct access to employee pay stubs, onboarding materials, withholding forms, and PTO requests in a mobile-friendly portal.

Eliminate double entry and enable real-time job costing with a seamless API integration.

"Miter rescued us from payroll and time-tracking chaos. Miter has allowed us to serve new states and public sector projects that we would have struggled with on our old system, and it also gives us real-time insight into our labor costs. Game changer."

Garrett Henke, COO
American Roofing & Metal
