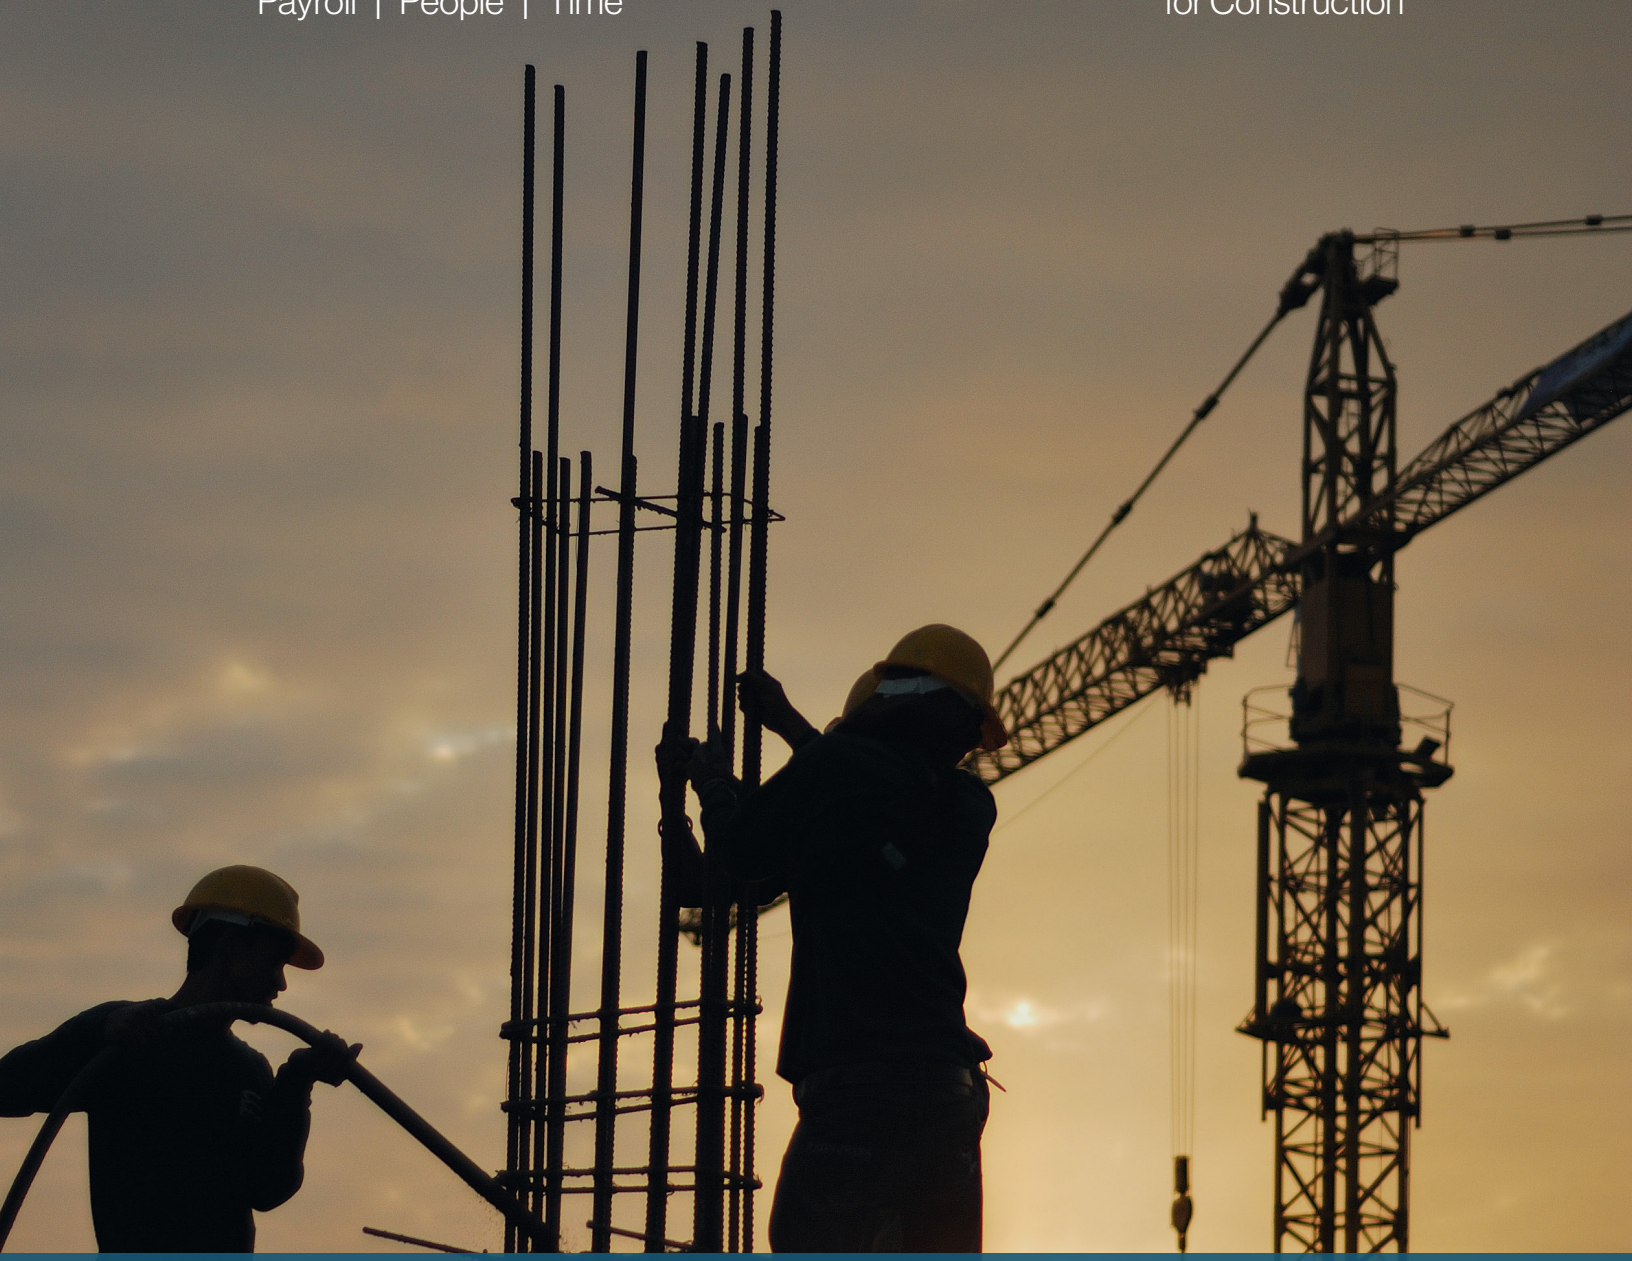
& Sage Intacct
for Construction



"Having a system that fully supports all of our Union and Davis Bacon requirements while fully integrated with Sage Intacct has been a huge timesaver for us. We no longer deal with importing files. Both systems remain in sync and provide the needed visibility into our organization that has turned into real savings!"

- Workforce Go Client

Connect Your Processes & Empower Your People

This powerful bidirectional integration combines the financial and project management functionalities of Sage Intacct for Construction with the enhanced HR, time tracking, and payroll capabilities of Workforce Go to create a more efficient and comprehensive solution for construction that unites your people, business, and operations management into a single solution that grows with you.

Why Choose Workforce Go & Sage Intacct for Construction?

We believe the best solution not only helps you grow your business but also helps you support and grow your people. With this in mind, Workforce Go provides enhanced capabilities tailored to construction companies in the areas of certified payroll reporting, job costing, and labor tracking to help manage workforce costs and maintain compliance.

Top Features & Benefits

Unified Data Management: Having a single source of truth for workforce and financial data simplifies processes and eliminates data silos to improve data accuracy and reduce manual tasks.

Construction-Specific Features: Industry-specific functionality like advanced tracking of labor costs by job site, prevailing wage rates, and union payroll management reduces manual data entry and creates seamless workflows for easier payroll processing and workforce management.

Job Costing & Labor Distribution: Get more detailed tracking of labor hours and costs across projects since information automatically feeds into Sage for job costing and project profitability analysis reporting. No manual data entry or data transfer is needed. This standard functionality is included and available for all of our construction clients.

Robust Time & Attendance Across Job Sites: Our system is specifically tailored to manage employees across multiple job sites, including hours by job site, job role, and project. With no middleware or manual workarounds required, you get real-time data sharing with everyone who needs to know.

Mobile & Self-Service Access: Workers can clock in and out, request time off, complete training, and report progress directly from the field. Managers can tailor procedures to match the requirements of the job site by using geofencing or geolocation options, creating workflows by job title, monitoring training and certifications, and more.

Comprehensive Payroll & HR: You can manage, engage, and inspire your workforce from pre-hire to retire with our full suite of tools to help you get the job done efficiently and accurately:

- Payroll
- Recruiting
- Onboarding
- Benefit Management
- Performance Management
- Compensation Management
- Learning Management
- ACA Management
- Time & Attendance
- Leave Management
- Advanced Scheduling

Tailor your integration to match your business's unique needs

We understand that the construction industry can present different priorities and pain points. You can choose only what you need - from the number of EINs and specific cost centers to job costing needs and industry specifications, you build the solution that matches your business's needs.
